# LC Duplex Polarity Reversible Uniboot Patch Cord | Single Mode

## UNI21 Series with Push-Pull Release Handle Mechanism

The LC uniboot fiber patch cable have a duplex UNI21 series single-mode LC connector on each side. The patch cord utilises a special round duplex cable that allows duplex transmission within a single 1.2mm/2.5mm cable.

This uniboot LC duplex patch cord has easy Push-Pull connectors for quicker patching, and the polarity of its connectors can be switched by simply opening the connector's housing.
UNI21

Connector Features

- Effortless release, using the push-pull mechanism
- Reduced cable tangling due to undivided duplex cords
- Detachable casing makes polarity reversal rather simple

- Compatible with cable diameters from 1.2 mm to 2.5 mm
- IEC61754-20 and GR-326-Core compliant
- RoHS/REACH&UL94-V0 inflammability compliant

Polarity Reversal

1 Release the locking clamp **2** Hold the connectors and pull back outer housing
3 Remove the connectors from their slots gently, to avoid any damage and reverse the connectors' positions and reinstall them
4 Return the housing back until it snaps
